** The estimated hours are the Government's best estimate of the labor mix at this time. However, actual labor hours used may vary upwards or downwards from the estimate.

3.2.2. Volume I, Section II, Tab 2 – Resumes Of Key Personnel for This Contract

Key Personnel – The offeror shall provide the resumes of the key personnel, which it expects will execute the work that may be awarded under this contract. Specifically, the offeror should provide a resume for the following five (5) key positions. The resumes should clearly display proposed job title, education, states in which the individuals are registered, special qualifications and experience record showing title, specific duties, responsibilities and assignments and the dates these were held within at least the last five years. The purpose of this submittal is to identify the level of expertise available for this contract. **After contract award, the Contracting Officer shall approve replacement of any key personnel.** The following key personnel shall be identified:

(1) **Program Manager** - The offeror shall designate one individual as the Program Manager that will be assigned to this contract. The Program Manager shall be competent, experienced, and knowledgeable with the requirements of Section C. The Contractor shall designate a Program Manager to act as a single point of contact (POC) for coordination with USACE. The Program Manager shall be responsible for the overall management of the contract including cost, schedule, and technical quality. The Program Manager shall take immediate corrective action when performance is not acceptable to USACE. The Contractor shall oversee the development and implementation of record keeping, administrative and quality control, and programs. The Program Manager should have, as a minimum, the following qualifications:

A college degree in engineering, construction management, geology, chemistry, or related field.

Professional registration, in their respective field, where applicable or available.

Five (5) years experience in Program Management for other contracts/programs with a minimum of three (3) years working experience in ~~HTRW and OE sites~~.
Environmental Engineering and Consulting.

Working knowledge of applicable federal, state, and local laws, regulations, and guidance.

(2) **Contractor Technology Reviewers/On-site Representatives** - The Contractor shall provide a minimum of ten (10) resumes and a maximum of fifteen (15) for individuals who are trained within their organization to provide for the review of environmental technology. These individuals should have appropriate education and experience in the specialized area identified in the Task Order, e.g., engineering, chemistry, geology, or hydrogeology. These individual are responsible for the monitoring of demonstration projects to insure compliance with contract requirements. These persons may be stationed at the project site whenever work is in progress. The need for an on-site reviewer will be defined in the Scope of Work for the project specific Task Order. The minimum qualifications of the reviewers/representatives should include:

A minimum of three (3) years working experience in quality control in environmental technology.

A college degree in engineering, construction management, geology, chemistry, or related field.

Working knowledge of applicable federal, state, and local occupational safety and health regulations.
